Note: For 1963, county industry detail for total employment and payroll may not add to county totals, because of the inclusion of central administrative employees and payroll in the county total but not in the county industry detail.

Standard Notes: - Represents zero. (D) Withheld to avoid "disclosing data" for individual companies. (NA) Not available.

[1]Companies operating oil and gas field properties were permitted to make only one report for oil and gas field operations in each State. Companies engaged only in performing oil and gas field or other mining services were permitted to mate only one report for all States; these reports were classified on the basis of the principal State in which the service was performed. Such reports contained employment on March 15 and other selected data by the State and county. For such operations, the State total figures shown for number of establishments represents the number of reports received which were classified in the State and those shown for number of establishments in a county represent the number of reports that indicate any operations in the specified county. All county statistics shown which were not reported separately were obtained by allocating the totals for each company on the basis of the reported county data.

[2]See table 2A footnotes 1 and 2.

[3]Excludes data for establishments included in manufactures.
